# SAE International

- SAE International, (ex-Society of Automotive Engineers), is a U.S.-based, globally active professional association and standards organization for engineering professionals.
  - Principal emphasis: transport industries
    - automotive,
    - aerospace, and
    - commercial vehicles.
- The Society coordinates the development of technical standards based on best practices identified and described by SAE committees and task forces composed of engineering professionals from relevant fields.

# SAE Aerospace Recommended Practices

- SAE publishes over 6,400 technical documents for the aerospace industry.
  - Aerospace Standards (AS),
  - Aerospace Recommended Practices (ARP), and
  - Aerospace Information Reports (AIR).
- Aerospace Recommended Practices are recommendations for engineering practice.

# ARP6467

- Human Factors Minimum Requirements and Recommendations for the Flight Deck Display of Data Linked Notices to Airmen (NOTAMs)
- <http://standards.sae.org/arp6467/>

The screenshot displays the SAE International website for standard ARP6467. The page title is "Human Factors Minimum Requirements and Recommendations for the Flight Deck Display of Data Linked Notices to Airmen (NOTAMs)". The standard is issued by the G-10a Aeronautical Information System Committee and was issued on 2014-02-13. The scope describes the minimum human factors requirements and recommendations for the flight deck display of data linked Aeronautical Information (AI), specifically Notices to Airmen (NOTAMs). The page includes a "Buy" section with options to "Add" to the cart or "Download" the document, and a "Special Offer" for SAE AeroPaks. There is also a "Grade" section for users providing feedback and a "Share" section with social media icons and a link to the page.
